B - 10 Block grease

B-10 Block Grease is a heavy duty block grease for use in journal bearings and other bearing applications that are designed to use heavy semi-solid grease. It was designed for older heavy duty equipment used in paper mills, steel mills, cement Kilns, mining machinery, steam locomotives, ore processing, and marine uses.

Technical Data

Thickener	Sodium Sterate
NLGI Grade	7
Penetration 60 Strokes, 77°F, 0.1mm	40 - 70
Water Resistance	Excellent
Rust Protection	Excellent
Drop Point	325° F
Color	Dark Brown
Appearance	Smooth Block

B-10 Block Grease is manufactured in a solid block with approximate dimensions of 12" x 16" x 4" which weights approximately 48 – 52 pounds. The block can be sliced into the desired dimensions.
