FORMULA 2039 HF ALKALINE CLEANER CONCENTRATE

Formula 2039 HF Alkaline cleaner Concentrate is a heavy duty, high foaming, high alkaline, multi-purpose cleaner. It is especially suited for tough cleaning operations such as vegetable, meat, fish and poultry fats, starches, greases, oils, proteinaceous stains and other hard to remove deposits. This cleaner is specially designed for foam applications but can be used for cleaning in place and steam or hot high pressure cleaning operations. The surfactants incorporated for foam generation and stabilization are very effective in wetting and emulsifying and greatly improve the ability of the alkaline cleaners and builders to penetrate and break down the greases, fats and other soils.

* HIGHLY ALKALINE - Dissolves fats and other deposits.
* SELF-FOAMING AND ONE STEP MIXING - Easy application.
* HIGH DENSE FOAM - Hangs on surfaces lowering usage.
* EXCELLENT WETTING - Speeds soil penetrating and removal.
* GOOD EMULSIFICATION - Aids soil removal.
* EASY RINSING - Speeds total cleaning operation.
* USDA A2 APPROVED.

This product is acceptable for use only in soak tanks or with steam or mechanical cleaning devices in all departments operating under the USDA’s Federal meat and poultry inspection programs.

This product is safe to be used on iron, stainless steel, copper, rubber and most plastics. However, it is not safe on aluminum, tin and galvanized.

USE INSTRUCTIONS FOR FOOD PROCESSING APPLICATIONS: Before applying Formula 2039 HF all food products and packaging materials must be removed from the area or carefully protected. After using this compound, surfaces must be thoroughly rinsed with potable water. Use rates will vary with application and the amount and type of soil. The following are suggested use ranges:

**FOAM CLEANING**: Use at 5:1 to 20:1 dilution with water. Apply with suitable foam generating equipment.

**CIRCULATING SYSTEMS**: Use at 5:1 to 50:1 dilution with water.

**HIGH PRESSURE AND STEM CLEANING**: Use at 40:1 to 100:1 dilution with water.

CAUTION: Contains caustic alkali - Do not get in eyes, on skin, or on clothing. Do not breathe mists or take internally. Material is corrosive to all human tissue. Do not mix with acids, reducing agents, or ammonium compounds. Review all material safety data sheet safety information before handling or using.
