FORMULA 2506 M CLEANER

This product is a low foaming, economical, multi-purpose liquid cleaner formulated for light to moderate duty cleaning. It contains no severely harsh or hazardous chemicals but has acid neutralizing capabilities and good dispersing ability. It can penetrate tough greases and inks, displace them from the surface, and keep them from re-depositing. It has good wetting and sheeting action and is non-streaking. It cleans and rinses well.

Due to its multi-purpose formulation and easy to use liquid form, its use level can be adjusted to suit the task. Use high levels for the toughest grit, grease, inks, and grime. Use lower levels for most cleaning operations to receive the optimum economy of use.

Typical Properties

Appearance	Blue colored liquid
Odor	Mild
Wt/Gal	8.92
pH, 1% solution	10
Foaming	Low
Free Caustic	None
Phosphates	Low
Biodegradable	Yes
Solubility	Complete - hot or cold
Hard Water Tolerance	Excellent
Rinses	Fast & Complete
Dispersing Ability	Very Good
