# Automatic Slack Adjuster Grease AAR Specification M-949-2002

Interlube's Automatic Slack Adjuster Grease meets the requirements and is certified by AAR to meet the **newest specification AAR M-949-2002**. This grease assures proper lubrication of slack adjusters under all conditions from -65° F to + 125° F. A copy of the AAR certification letter to Interlube is available upon request.

All products approved to previous AAR M-949 specifications are considered obsolete.

Interlube's Automatic Slack Adjuster Grease contains no heavy metals.

Please contact Interlube for additional information.

All railroad grease products can be combined on your purchase order for the appropriate quantity price level.
