A TECHNOLOGY BREAKTHROUGH . . .

Moly Hi-Lo Temp Multi-Purpose Grease

Interlube Moly Hi-Lo Grease represents a great breakthrough in high temperature, non-melt lubricant technology. Continuous research has resulted in this superior product, a popular multi-application lubricant.

Moly Hi-Lo Grease:

- Reduces substantially maintenance costs, downtime, and lubrication frequency.
- Will pump easily at low ambient temperature and still provide excellent lubrication at high bearing temperature.
- Has no melting or drop point.
- Reduces substantially maintenance costs, downtime, and lubrication frequency.
- Thoroughly tested under severe shop conditions.

All these advantages and savings can now be realized with Moly Hi-Lo because of this lubricant breakthrough by Interlube Corporation.

Starved, overworked, overheated bearings need this non-melting lubricant.

A fantastic claim. . .

NO MELT (HI) and MINUS -20°F (LO)

Our representative will gladly prove this point!
